*Dear Councillor Candler,*

*Re Potential Closure of Public Toilets in Marple Memorial Park.*

*My attention was drawn to the above topic in December 2010 and I attended one of Cllr. Wrights surgeries in Marple Library and was assured that the toilets would not be closed unless two convenient alternatives were in place. It would appear from information I have received from FOMMP that closure is still a possibility and I felt it advisable to write to reiterate the points I made at that time.*

*Unlike many of the bowling pavilions in the borough, Marple Bowls pavilion does not have a toilet on its premises and is therefore totally dependent on the public toilets for players and supporters use. The Green is well used and we entertain as many as four teams each week of the season which involves visitors, many of whom are elderly, from as far afield as Glossop, Hyde, Debdale and Gatley as well as our domestic games and the use of a toilet is essential.*

*Bearing this information in mind, I hope that you will represent our needs at any discussions that take place in the future to ensure that the park toilets remain open indefinitely and secure this essential facility in the park.*

*Regards,*

*Ken Else. Secretary.*
