

# Computer Taster

## Sessions

I love it!  
Being able to use  
a computer has  
changed my life.

What's  
the point?

What would I  
ever want with  
computers?

It's too late  
to learn!

I might break  
it!

**Are you over 50?  
Do you want to learn  
to use the internet, to e-mail,  
to write letters?**

**Look no further...**
