

MARPLE PARKS IN DANGER!

Savage cuts of £1 Million a year to the budget of Stockport's Park are being proposed by Stockport Council. This is cutting around 30% of the total budget for Parks.

The proposed cuts include:

REMOVING instead of repairing or replacing broken play equipment.

REMOVING instead of repairing or replacing broken seating, signage and street furniture.

Picking up litter NO MORE THAN once per week.

NO LONGER EMPLOYING PEOPLE WITH HORTICULTURAL KNOWLEDGE to look after flowerbeds, trees, shrubs and parkland.

REMOVING SUPPORT to Friends of Park Task Days leaving the community to fight the decay.

The loss and dereliction to Marple's parks and green spaces by these cut may never be recoverable.

If you use and care about your local parks and green spaces you can have your say in their future.

An on-line consultation is available now and you can access it from: www.marple-uk.com/parks

It only takes a couple of minutes. Please ask all family, friends and neighbours to do it before it's too late.
